Report of School Board.

We think our schools for the past year, with the exception of one, have been very successful.

We have run the three schools at the Narrows, and we feel that the work done in them has been a great improvement over past years, before the school was graded. The teachers have had a better chance and their work has been most satisfactory.

The work in the two lower grades at the Ridge has been excellent, while in the Grammar room, we have been unfortunate.

We still feel that graded schools are what we need, and we wish earnestly that the parents would co-operate with the teachers and the school board, that all working together might make our schools the best to be found anywhere.

Owing to a lack of funds, our schools have only been open twenty-eight weeks the past year, and we are still in the arrears about meeting our bills. In order to run our schools thirty weeks, it will be necessary to have more money raised, and we hope all the townspeople will consider the matter and that we shall have a good fund for the benefit of our schools.

We expect to be criticised, but we feel that we have done the best we could, and not expended any money only that needed.

We thank our teachers most heartily for the work they have accomplished and for the way they have worked with the board for the good of our schools.

There have been but few books presented to the library during the year, and not as many added by purchase as usual, because of the expense of re-binding a large number of books and the making a card catalogue and the building of a cabinet for the same.

This card catalogue has been much needed for a number of years and will be a great help in selecting new books and keeping the library in shape.

During the last year more books have been loaned and read than ever before.
